Forest Fire Review Panel

Three forestry specialists including Peter J. Murphy, Associate Dean of the Faculty of Agriculture and Forestry, were recently assigned the task of probing the forest fire situation in the Northwest Territories. Professor Murphy, who will serve as chairman of the panel, Stan R. Hughes of Naramata, B.C., and John S. Mactavish of Waverly, N.S., were appointed by Northern Development Minister Jake Epp to examine the efficiency of 1979 fire-fighting operations in the Fort Smith area and to make recommendations on the forest fire management priority zone system used by federal foresters in the Territories.

The panel's two reports are to be completed by 31 March 1980. In this regard, submissions will be accepted, hearings will be held, and sub-committees will be utilized where necessary.

This year's outbreak of forest fires, the majority of which were caused by lightning, was one of the worst on record. The three hundred and seventy-nine fires reported burned more than 1.4 million hectares. In addition to spending more than \$3 million for contract aircraft and other fire prevention measures, the fire budget of \$1.1 million was exceeded by an estimated \$1.3 million. The total expenditure for forest fire management in the Northwest Territories this year amounted to more than \$5.4 million. □

Television cameras and screens make it possible for students in Calgary and Edmonton to attend the same graduate nursing class without leaving their own cities.

A Classroom With a Difference

The Faculty of Nursing is conducting a graduate level course that may be unique in Canada. The classrooms used for the course are the AGT Television conference studios in Edmonton and Calgary. The reason for this unusual setting is the circumstance in which half of Dr. Shirley Stinson's class are in attendance

at the University of Calgary, the remainder of the students being here in Edmonton. The course is a pilot project to evaluate the feasibility of sharing scarce resources between the various teaching centres across Canada. The economics and logistics of the project suggest that it is possible to teach students in two locations

at one time with relatively little additional cost per course.

Television cameras in both studios record the proceedings of the divided class and air the happenings on television screens in both studios. Like a long distance telephone call, it's the next best thing to being there! □

Board of Governors

The November meeting of The Governors of The University of Alberta took place on Friday, 2 November. The following matters were among those discussed.

The Patricia Austin Centre

On the recommendation of its Building Committee, the Board approved the naming of a facility currently situated in the basement of the Education Building.

The facility, to be known as The Patricia Austin Adapted Physical Activity Research and Demonstration Centre, is named in honor of the memory of the late Dr. Austin and is devoted to the work which she initiated at the University—the development of mentally handicapped children through specially adapted physical activity.

Dr. Austin, an internationally known and respected physical educator, taught at The University of Alberta from 1947 until the time of her death in December 1978. She is best known perhaps for her special interest, assisting the mentally retarded. Dr. Austin was deeply involved in the Alberta

Committee for the Dependent Handicapped, the Alberta Association, Recreation for the Disabled; the Alberta Special Games for the Mentally Retarded; the Canadian Association for the Mentally Retarded; and the Pre-School Play Program for Retarded Children (PREP), which she founded. This last activity, PREP, forms the basis of the new Adapted Physical Activity Research and Demonstration Centre.

International Student Funding

Upon the recommendation of the Finance Committee, the Board approved the additional grant of \$2,500 to the Golden Key Emergency Fund for the current academic year. In addition, the Board approved the establishment of a Bursary Program for International Students to be funded initially in the amount of \$15,000 and commencing in the current academic year. This latter program of assistance will be reviewed by the Governors before the end of the 1980-81 academic year.

The Golden Key Emergency Fund is designed to provide loans on an emergency basis to needy

international students and is, at present, the only source of emergency funds for such students. Funded by interest from a trust fund and by a \$2,000 annual grant from the Board of Governors, the assistance has been most welcome. The additional allocation approved on 2 November brings the current total value of the Fund to \$5,000. As in the past, future allocations to the Golden Key Emergency Fund will be made in light of the Fund's activities during preceding years.

The second program of assistance approved by the Board, the establishment of bursaries for international students was first recommended by the Council on Student Services and endorsed by the General Faculties Council. Although specific guidelines and regulations governing the award of such bursaries have not yet been formulated, it is expected that the bursaries will provide financial assistance in an amount equivalent to tuition and associated fees. Both undergraduate and graduate students will be eligible to apply for bursaries. □

Senate Meeting

The next meeting of The University of Alberta Senate will take place on Friday, 16 November in the Council Chamber, University Hall.

Franco-Albertan Literary Prize Awarded

For the second time only since its creation in 1972 the Jean Patoine fund has awarded a literary prize for excellence in the field of French-language literature in Alberta.

The \$500 Prix du Concours Jean Patoine was awarded Saturday night, 3 November, at the annual Club Richelieu Ball at the Edmonton Inn to Claire Vallée. Her study of one aspect of the literature of Georges Bugnet, an Alberta author, entitled "L'Archétype du Voyage dans l'Oeuvre de Georges Bugnet," was accepted as a thesis for the degree of Master of Arts earlier this year at the University of British Columbia.

Miss Vallée was born in Spirit River and brought up in Bonny-

ville. She received her BA from The University of Alberta in 1975 after a year of study in France and two years at the former Collège Universitaire Saint-Jean. She will receive her Master of Arts degree from the University of British Columbia during the Fall Convocation after two years of study at that institution. Miss Vallée is currently working for a cultural committee of the Company of Young Canadians.

The author studied, Georges Bugnet, and his wife Julia came to Alberta from France in 1904. Currently living in Legal, Mr. Bugnet's contributions to literature and horticulture in this province have often been recognized, most recently in 1978 when

The University of Alberta awarded Mr. Bugnet an honorary degree in a special off-campus ceremony in Legal.

The Jean Patoine Commemorative Fund was established by the Club Richelieu in 1972 following the decease of Father Jean Patoine, founder of the Club, and a very well known individual in the Franco-Albertan community. In view of Father Patoine's commitment to education and to French language and culture, it was decided that awards would be made for literary projects which encouraged the spiritual, intellectual and cultural development of francophone students. □

Henry Marshall Tory Building May be Due for a Face Lifting

The facing on the east and west walls of the Henry Marshall Tory Building is four inch thick ashlar tyndall stone of random size. At present, work crews are removing the top thirty-five feet of stone to assess the stability of the cladding. Building officials here on campus are taking safety precautions that may very well

prove to be unnecessary. Meanwhile, it is suspected that for one or a variety of reasons the facing may not be properly secured to the building structure. If removal of the upper levels of the facing suggests a need for concern, the entire east and west walls will be stripped and then rebuilt. □

At just five miles per hour most volunteers were a little shaken by the impact of this seat belt "convincer." In a thirty miles per hour crash the impact is thirty-six times as great as the neck straining crash of the convincer! The convincer was one of the feature attractions of the Safety Expo held in CAB recently.

Jay K. Bishop, Associate Professor, Department of Educational Psychology, presented a paper entitled "TV as an Adverse Environment for the Children of Canada," at The Western Regional Conference of the Comparative and International Education Society held in Tempe, Arizona, 11-13 October. The theme of the conference was "Children and Their Environments Around the World."

Doug Betts, Assistant Professor of Mathematics, was invited to present the discussion paper at the October meeting of the Research Section of the Royal Statistical Society. The paper, co-authored by Donald G. Watts, is entitled "Relative Curvature Measures of Nonlinearity" and will be published in the next issue of the Journal of the Royal Statistical Society.

Dr. D.F. Cameron, Dean of Medicine, was elected Vice-President of the Association of Canadian Medical Colleges.

Peter J. Murphy, Associate Dean of Forestry, gave a paper at the 3rd World Congress of the International Union of Societies of Foresters in Paris. The paper dealt with the Canadian university forestry schools and their rôle in public education. He represented the Canadian Institute of Forestry and was elected North American representative on the Executive Board for a five-year term.

J.J. Mitchell, Professor of Educational Psychology, was recently the Keynote Speaker at the "Issues in Adolescence" Conference in Calgary. Professor Mitchell recently returned from UCLA where he was the recipient

of a Visiting Scholar Award. His most recent book, *Adolescent Psychology*, was released in the Spring by Holt, Rinhart & Winston.

Jim Hackler, Professor of Sociology, spoke to the Provincial Probation Officer's Association at their annual conference in Red Deer, 27-28 October. His topic was "The Grand Cure for All Crime, Sin, Deviance and other Nasties: An Optimistic Sociologist Runs Amok."

Bruce Paul Dancik, Associate Professor in the Department of Forest Science, received a citation for the Canadian Forestry Achievement Award, the highest award bestowed by the Canadian Institute of Forestry. The award, bestowed at the recent CIF annual meeting held in Jasper, was in recognition of "his effective combination of sound science, professional competence and sympathetic understanding of forestry issues that concern Albertans." Dr. Dancik was Chairman of the Environment Effects of Forestry Operations in Alberta. The findings of this panel have had considerable public discussion, extensive coverage by the media, and a highly beneficial impact on public attitudes and government policy. Dr. Dancik teaches courses and conducts research in dendrology, forestry tree improvement, and forest genetics. He is a member of the Science Advisory Committee to Environment Council of Alberta and of the Land Research Advisory Committee of the Alberta Oil Sands Environmental Research Program, chairman of the National Areas Committee of the Rocky Mountain Section of the CIF, and Associate Editor of the Forestry Chronicle.

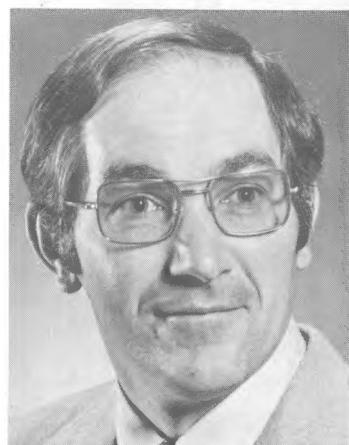

Dr. James J. Jenkins of the University of Minnesota recently presented a series of seminars on the topic "Psychology as an Ecological Science" to the Center for Advanced Studies in Psychology at The University of Alberta from 29 to 31 October.

The Faculty of Pharmacy and Pharmaceutical Sciences is pleased to announce the appointment of

R.T. Coutts as Assistant Dean with special responsibilities for Graduate Studies and Research and **R.E. Moskalyk** as Assistant

R.T. Coutts

R.E. Moskalyk

This is the highest award of the Society and it is given "in recognition of achievements and contributions in the field of geotechnical engineering in Canada."

Myer Horowitz was elected President of the Canadian Bureau for International Education during the course of that body's annual conference held in Edmonton 8 and 9 November. Dr. Horowitz, whose initial term of office is one year, heads a six-member board of directors which sets CBIE policy.

Joseph Royce, Director of the Center and **Leendert Mos**, Professional Officer were editors of the work, *Theoretical Advances in Behavior Genetics* (Alphen aan der Rijn, Netherlands: Sijthoff & Noordhoff, 1979). The work constitutes the proceedings of a NATO Advanced Study Institute sponsored by the Center and held in Banff in September 1978.

Music

Edmonton Symphony

16 and 17 November, 8:30 p.m. Russian violinist Igor Oistrakh will join the Edmonton Symphony at the Jubilee Auditorium. Tickets available at the Bay, HUB, Farlie Mohawk, West Den, and at the door.

Centennial Library

21 November, 8 p.m. The Prairie Flower Dancers will be guest artists on the Canada Music Concert. Tickets \$5.

The Merry Wives of Windsor

The Department of Music will stage its 1979 production, *The Merry Wives of Windsor* by Otto Nicolai, tonight, Thursday, 15 November, and Saturday, 17 November, at 8 p.m. in Convocation Hall. The popular work was first performed in the last year of Nicolai's life, in 1849. Since then it has held its own beside Verdi's *Falstaff* (1893), which is another setting of Shakespeare's famous romantic comedy.

The cast for this year's production includes some of the best singers on campus: Alan Ord is Falstaff; Elsie Achuff and Cathy Megli are the "merry wives." The full production, with sets by Gordon Lindstedt, involves members of the Concert Choir, prepared by Larry Cook; dancers from the Edmonton School of Ballet under Margaret Flynn;

and the St. Cecilia Orchestra. Professor Ord is the producer and stage director and Professor Alfred Strombergs is the musical director and conductor.

Tickets for tonight's performance and for Saturday, are available in the Office of the Department of Music, 3-82 Fine Arts Building, or at the door to Convocation Hall in the Arts Building. They cost \$4 and \$3 for students and senior citizens.

To judge from the success of previous productions (for example last year's Shakespearian opera, Benjamin Britten's *The Midsummer Night's Dream*), *The Merry Wives of Windsor*, rich in romantic melody, humor, and joy—and not before seen in Alberta—should be of great interest to Albertan music and theatre lovers. □

Selection Committee for Chairman of the Department of Physics

The GFC Nominating Committee is seeking nominations to fill the vacancy for one member of the academic staff to serve on the Selection Committee for Chairman of the Department of Physics.

Would those who have suggestions for nominations or who are interested in serving on the above Committee please contact the Secretary of the Nominating Committee at 2-1 University Hall, telephone 432-4175. Nominations should be accompanied by a very brief general vita.

Parking Complaints

Complaints have been received from residents of the Windsor Park area that streets and lanes are heavily congested by persons attending this University and parking on those streets.

At present, daytime parking is restricted to a 2-hour period and bylaw enforcement is being stepped up to ensure compliance. There is a possibility that parking will be further restricted.

With respect to evening parking, this campus has ample parking facilities to accommodate evening attendees and utilization of this space is urged.

The University of Alberta has a responsibility to be a good neighbor to the surrounding community and by being considerate in the matter of not parking in residential areas, members of the campus community can project this image. The cooperation of all concerned is urged.
